

look for leaves, twigs and branches

INSPIRATION THIS SEASON comes from deep in the woods as new pieces reveal a gathering of leaves, twigs and branches for textures, details and motifs. While the garden-variety botanicals, which blossomed throughout collections last year, are still in full bloom, watch for styles that stem from a more organic and rough-hewn approach, such as raw stones and rustic finishes. The look is at once earthy and elegant in pieces that have a hand-crafted, one-of-a-kind feel. — BY BETH BERNSTEIN
